ANCHORAGE

Training for Jobs that Pay!

Telecommunications:

September 24th-28th: Monday-Friday, 8am to 5pm

This 40-hour introductory training includes exposure to basic principles in the telecommunications industry including: central office operations, outside plant line and splicing work, installation and repair, data and key/pbx, simple termination and testing of category 5E cabling, network interface device installation techniques, block terminations, basic AC/DC theory as it relates to telecommunications, and principles of light and fiber optics.

Weatherization with OSHA 10:

October 1st-October 4th: Monday-Thursday, 8am to 5pm

This 32 hour introductory training covers; building science, health and safety, theory of blower door use, including general air sealing, and attic weatherization. Training will also cover theory of identifying specific home weatherization problems, and doing weatherization work safely.

Shielded Metal Arc Welding:

**October 2nd-13th, Tuesdays & Thursdays, 6pm to 9pm
& Saturdays, 9am to 5pm**

This 26 hour introductory training covers; vertical and horizontal stick welding, oxygen and acetylene cutting, safe use of hands-on tools and materials, welding practices, identify joint design, fit-up and electrode selection. Hands-on practice with stick welding is also covered.

Carpentry:

**October 9th-25th: Tuesdays, Wednesdays & Thursdays, 6pm-9pm
& Saturdays from 9am-5pm**

This 40-hour introductory training covers the basics of carpentry and trades math. Accurate reading and use of a tape measure, 3-4-5 method of layout, and safe use of power tools. Using skills learned in class, participants build the following projects: hammer, saw & nail, a sawhorse, a foot stool, and a set of stairs to a platform. Construction site education, safety, and carpenter expectations will also be covered.
