Job Description:

We are seeking an experienced, motivated Construction Project Manager to join our team of high achievers. With a number of high profile projects, our new team member will need to be detail oriented and bring broad experience in construction and project management.

Qualifications/Skills:

- 10 years experience overall
- 5 years experience with estimating, scheduling and managing vertical complex projects.
- CM, Civil Engineering degree or equivalent preferred
- Competency with MS Office (Word, Excel, Outlook, etc.)

Ability to:

- Work autonomously and have proven success in client/subcontractor relationships
- Excellent verbal and written communication skills
- Handle pressure, meet tight deadlines and make independent decisions
- Attentive to detail and the broader picture
- Quick self-starter, team-oriented and able to work with different personalities and professional styles to complete tasks
- Service and client-oriented personality

Responsibilities:

- Produce, review and approve project schedules and micro-phases of work
- Manage subcontracts and purchase orders
- Ensure that work meets company expectations for quality of workmanship, conformance to contract, and adherence to schedule
- Ensure that jobsites comply with all applicable federal, state and local regulations, statutes, ordinances, rules and laws
- Ensure that all employees, subcontractor employees, and visitors to the jobsite comply with company safety policies and procedures
- Must be willing to travel, if required
- Communication with Owner, A/E Team, project stakeholders
- Understands and applies the company labor relations policies.

This job description is not intended to represent a complete, comprehensive list of all duties and responsibilities that may be required in this position. There may be unplanned activities and other duties as assigned.
